

PUBLIC NOTICE TO BOIL WATER

July 1, 2025

Blair Water Supply Corporation had to shut down their water line in Tye today to repair a leak causing a water outage and loss of required pressure. The line has been repaired and pressure restored, however Blair Water customers who are in Tye will be affected and under a Boil Water Notice. The Texas Commission on Environmental Quality (TCEQ) rules require our water system, Blair Water Supply Corporation PWS ID 2210024, to notify customers of the need to boil their water prior to consumption.

To ensure destruction of all harmful bacteria and other microbes, water for drinking, cooking and making ice should be boiled and cooled prior to use. The water should be brought to a vigorous rolling boil and then boiled for two minutes. In lieu of boiling, you may purchase bottled water or obtain water from some other suitable source.

When it is no longer necessary to boil the water, water system officials will notify you that the water is safe for consumption. Instructions to discontinue boiling will be issued in the same manner as this notice.

If you have any questions concerning this matter, you may contact Leslie Scott at (325) 928-1011.

If a customer wishes to contact TCEQ, they may call (512) 239-4691.
